Sports Equipment Challenge

What you need:

- **Recycled materials-
cardboard, plastic bottles**
- **Paper**
- **Tape**
- **Glue**

Sports Equipment

{Challenge}

Can you make your own sports equipment and use it to play a game?

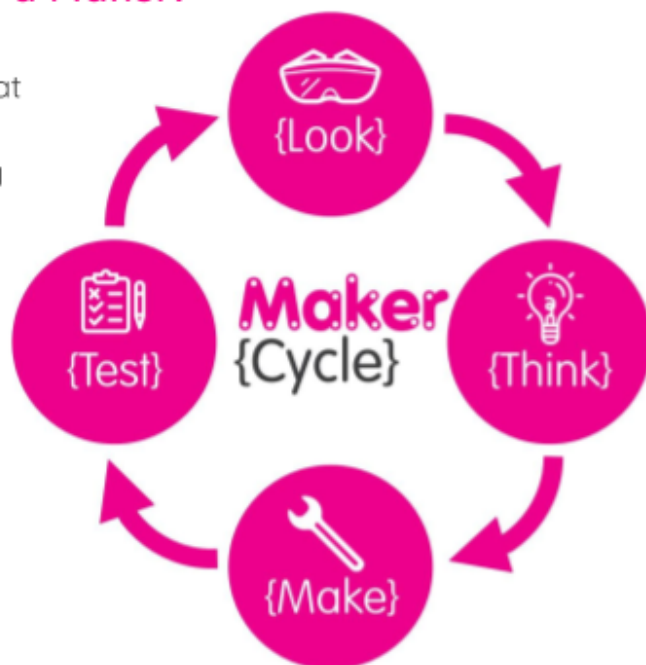

What you need

- Recycled materials- cardboard, plastic bottles
- Paper
- Tape
- Glue

Use the Maker{Cycle} to create like a Maker:

- **Look** around the house for old materials that you can transform into your sports kit.
- **Think** about what you want to make. A ping pong racket? A hockey stick? A cricket bat? A tennis racket? Or why not use your imagination to create your very own equipment and then invent a game with it afterwards!
- **Make** your sport equipment out of the materials you collected.
- **Test** it out in a game, does it work? How could you improve it? Does it need to be stronger or more comfortable to hold?

{Top tip}

Try making your own tennis racket by criss crossing elastic bands inside a cardboard cutout.
